

Atidim in IDF

**Be realistic.
Dream**

Ministry of Education
Friends of Atidim

משרד החינוך

"All human actions are founded in a dream"

(Theodor Herzl)

Are you looking for self-realization, meaning, self-growth, and a path for success?

Join Atidim - a program founded in the IDF and works, since 2000, to integrate a quality population from the periphery into the routes of the significant service in the IDF.

Atidim was founded for those who **act** for security, community and the country.

For those who **dream** to reach far, to overcome every challenge and difficulty.

For the **pioneers** willing for significant service in the IDF for the development and advancement of the State of Israel.

For the **visionaries** who want to live in our country with security in a prosperous, just and egalitarian society.

Atidim- Be Realistic. Dream!

Lieutenant colonel Idan Ben-Tzvi
Commander of the IDF Atidim program

Atidim in the IDF

The program provides comprehensive support to students from the periphery and unique populations as part of the IDF's academic Atuda and other future academic excellence tracks.

The program includes

Financial support

Preparation for a meaningful service

Academic escort

Personal and social escort

**It is possible to request to join the Atidim program, the request to join will be examined individually.*

The Academic Atuda of the IDF

Come be a part of the IDF's high-quality command and academic branch!

The program includes

**Permeant
serving**
("Keva")

**Mandatory
service**
(years and 8 months 2)

**An academic
degree**

It is possible to study for advanced degrees during the military service

The Academic Atuda of the IDF

The Subjects

Engineering and Exact Sciences

Electricity and electronics, industrial engineering, mechanical engineering, aeronautics and space, structural engineering, materials science, information system, software engineering, computer engineering, data engineering, computer science, mathematics, physics, chemistry.

Medicine

General, emergency, dental, nursing, pharmacy.

Social Science

Law, economics, accounting.

And a variety of other professions that can be seen on the academic Atuda website

Admission Requirements

1. Suitable personal data

Quality data for officers

2. Meeting the admission requirements of the institutions

Bagrut and psychometric test*

3. Passing IDF screening tests

The institutions

Universities

Technion, Ben Gurion, The Hebrew University, Tel Aviv, Bar Ilan, Haifa and Ariel

Leading Colleges

Ort Braude, Sami Shamon, Lev Academic Center, Afeka, HIT and more...

**A psychometric score higher than 590 is required, even if the educational institutions' requirement is lower*

The Elite Programs for Outstanding Students

The programs are intended for outstanding graduates, who have values and born leaders with high academic abilities and aspiration for excellence.

What do you get?

Priority in placements

Close escort and personal attention

The Elite Programs for Outstanding Students

The programs

"Tzameret"

A dedicated program for training military doctors.

"Psagot" electricity and physics

Combined bachelor's degree in electrical engineering, electronics and physics.

"Psagot" Software

Bachelor's degree in software engineering and completion of hearing duties for a master's degree.

"Alonim"

Bachelor's and Master's degree in data engineering DATA SCIENCE including a thesis.

"Gvishim"

Bachelor's and Master's degree with a thesis in materials science and engineering.

"Silon"

Bachelor's degree in aeronautical engineering and master's degree in aeronautical engineering / autonomous systems / systems engineering.

"Brakim" mechanical

Bachelor's and Master's degree in mechanical engineering.

"Brakim" mechanical and materials

Double bachelor's degree in mechanical engineering and materials engineering.

Elite Program and Academia

"Havatzalot"

Academic Military Excellence Program, in core positions in the Intelligence Division. The program combines dual major bachelor's degree studies that provide analytical tools in realistic and humanistic subjects. The training takes 3 years and is carried out at the Hebrew University in Jerusalem. After completing the training, the graduates of the program serve 6 years in "Keva" service in core positions in the Intelligence Division.

Admission conditions: The admission conditions for the university must be met - meeting a minimum psychometric score of 650, and meeting the agreement scores required for admission to the elective courses.

"Talpiot"

A military-academic excellence program for the training of security-technological leadership for the research and development systems and the combat means of the security system. The Talpiot program lasts about nine years and includes training that lasts about three years at the Hebrew University, followed by 6 years of "Keva" service in key positions in research and development systems.

Admission requirements: very high military data, mathematics and physics studies in the scope of 5 credits.

talpiot@mailto.mod.gov.il

Atidim Helps You in the Sorting Process!

Uncertain about what to study?

Uncertain about what to study? Reach us and we will help you find the right path for you! Professional-academic employment counseling will be provided by a leading consulting company in the field.

Psychometric test

Atidim offers an online and enhanced psychometric course at a subsidized and affordable price on selected dates.

Feuerstein diagnosis

The Feuerstein program allows young people from Ethiopia and the periphery to be admitted to academic studies even if the psychometric data do not meet the admission threshold. Valid for specific educational institutions and eligible population only.

For more details reach us

The Pre-academic Preparatory Program of Atidim

- ✓ Improving achievements, guidance, advice, accompaniment and preparation for the academy for a year.
- ✓ Another opportunity to qualify for the IDF's academic officer track.
- ✓ Improving the ability to reach elite programs within the reserve

The program includes

Preparations for the academic officer track

Pre-academic studies

The Pre-academic Preparatory Program of Atidim

Goals of the program

- Preparatory certificate that includes mathematics, English, expression and another scientific subject.
- Psychometric test improvement.
- Improving personal and academic maturity.

Advantages

1

Preparation for the academy

Academic learning and thinking

2

Professional guidance

Helping with the choice of profession

3

Tuition

funded by Atidim
(the candidate is committed to deductible of 1,800 NIS and a yearly pay for dorms)

Sorting Requirements

- 1. High quality Bagrut**
4/5 points in math and English.
- 2. Military personal data**
Quality data for officers.
- 3. Psychometric score**
550 and above.
- 4. Personality screening**
passing a personal interview.

The institutions

The Technion

Scientific subjects / engineering

Ben Gurion University

Scientific subjects / engineering

The Hebrew University

Medicine / social science subjects

"Peamei Atidim"

Two-stroke engineering studies with experience and significant service in development roles in elite technology units in the IDF.

The track structure

There may be differences between the different study tracks (machines/electronics and electricity/software)

"Peamei Atidim"

Subjects and institutions

Ariel University

- Electrical engineering and electronics: dedicated class with direct placement at 81/8200 in the Intelligence Division.
- Mechanical Engineering.
- Biotechnology engineering: a unique track for women only for the plastics and materials professions.

Ort Braude College Karmiel

- Electrical engineering and electronics : with placement in the cyber defense division.

Sami Shamoon College and The Technological College of Beer-Sheva

- Electrical engineering and electronics
- Software engineering - placements are direct to select units in the C4I Corps and Intelligence Division
- Software engineering for the ultra-Orthodox - a dedicated class for members of the ultra-Orthodox population that includes prep school, Bagrut exams and completion of core studies.

Advantages

1

**Placements
in selected and high-quality
technological units**

2

**Degree in strokes
engineer's diploma and
academic degree**

3

**Tuition funding
about 90% of both engineer's
diploma and academic degree**

Sorting Requirements

1. High quality Bagrut

4/5 points in math and English

2. Military personal data

Quality data for officers

3. Psychometric score

550 and above

4. Personality screening

passing a personal interview

5. Outstanding students track

Holders of an excellent Bagrut certificate of 5 points with grades above 80 in the subjects: mathematics, English and a scientific subject (physics, computers, mechatronics and chemistry - for those studying biotechnology) can be admitted to the program without a psychometric score

Choosing **Atidim** Choosing **Involvement**

All Atidim students are involved in social and meaningful activities for the community

Examples where you can volunteer

The Support You Get

We are here for you through all the way ...

Preparation for meaningful service

- ✓ Visits to IDF units
- ✓ Student jobs in the industry
- ✓ Mentoring program
- ✓ Leadership lectures
- ✓ Preparation for interviews and accompanying the placement procedure for the units

Economic

- ✓ A laptop for every student!
- ✓ Subsistence scholarships for the eligible
- ✓ Distance scholarship for the eligible
- ✓ Atuda grants:
 - ✓ Atuda encouragement grant of 10,500 NIS will be deposited into the bank account each school year
 - ✓ Reimbursement for the registration fees for educational institutions and the psychometric course up to 2,500 NIS.

Academic

- ✓ Academy preparation days
- ✓ Subsidized tutoring and concentrated marathons for exam periods!
- ✓ Receiving online courses on the GOOL website

Social

- ✓ Social involvement in the community
- ✓ Personal mentoring
- ✓ Personal escort
- ✓ A trip in Israel

The Sorting Process for the Academic Officer of the IDF

December – February

- Signing up for Atuda at the "Mitgaisim" website

March – April

- Last date to take the psychometric test (July date - unusual date)
- Beginning of registration for subjects with the academic institutions (subject to Meitav's approval)

April – August

- Passing personality screening day and screening days for dedicated programs and Atuda programs

August – October

- Giving final answers - after receiving the Bagrut grades

**The July date is subject to an individual exam and Meitav's approval*

***subject to receiving Meitav's approval after signing up for Atuda*
